A CALLING ON ALL PARENTS, ALL GRANDPARENTS...

South Africa | 6 September 2025...

Ladies and gentlemen, mothers and fathers, oumas and oupas:

I stand before you not as a politician, not as a bureaucrat, but as a concern parent and one day as a grandfather... As a South African, someone who refuses to surrender our children to the machinery of control...

The Minister of Education seeks to mandate vaccination in our schools... Not through dialogue!... Not through consent, but through decree!...

They tell us it's about health!... But we know better!...

This is not medicine!... It is management!...

This is not protection!... It is possession!...

They want to tie this mandate to the BELA Bill - a Bill that already threatens to strip our schools of community voice, cultural autonomy and parental authority... Together, these policies form a system that no longer sees our children as human beings, but as units to be processed, tracked and controlled...

Let me be clear:

Education is not a lab... Our children are not experiments...

Mandatory vaccination violates parental rights, bodily autonomy and informed consent...

This is not about health!... It's about control!...

We are witnessing the slow creep of communistic governance - where the state decides what our children learn, what they believe and now, what is injected into their bodies... This is ideological colonization, it is the erasure of family, faith and freedom...

But we will not comply...

We will not hand over our children...

We will not be silenced by policy...

We will not be intimidated by ministers who forget they serve the people...

To every parent, grandparent, and guardian:

You are not alone...

You are not powerless...

You are the first and final line of defence...

Speak to your schools... Write to your representatives... Gather in your communities...

Let your voice be louder than their mandates, let your voice be heard...

Let your love be stronger than their control...

Because when we stand together - firm, united and unafraid - no minister, no bill, no system can take our children from us...

Do not keep this to yourself...

If you've received this message, then you are now part of the message... **Share it... Speak it... Print it... Post it...** Let it echo in every classroom, every church, every whatsapp group, every house...

Silence is complicity... Spread the truth... Defend our children...

NO CONSENT. NO COMPLIANCE.
