

CONSTITUTION OF THE GARDEN ROUTE FIRST (GR FIRST)

1. Preamble

GARDEN ROUTE FIRST (GR FIRST) is founded on the conviction that local governance must be by its people, for its people — rooted in transparency, justice, service excellence, and community participation. GR FIRST affirms its commitment to the Constitution of the Republic of South Africa and applicable municipal legislation.

It advances citizen led governance, ethical leadership, and sustainable stewardship, recognising that environmental degradation and governance failure disproportionately affect the poor and future generations.

GR FIRST affirms its commitment to:

The Constitution of the Republic of South Africa

The Municipal Structures Act and Municipal Systems Act

The Municipal Electoral Act, 2000 (Act 27 of 2000)

The Electoral Commission Act, 1996 (Act 51 of 1996)

GR FIRST rejects dominance of traditional party-political structures in local government. It believes in citizen led governance, ethical leadership, and non-partisan collaboration that restores integrity and trust in public life.

Recognising that effective local governance is strengthened through principled cooperation, GR FIRST affirms that, in pursuit of accountable representation and enhanced participation in municipal affairs, it may contest elections through an electoral cooperation agreement with any IEC registered independent political party or movement whose values, governance standards, and constitutional principles align with those of GR FIRST.

Such cooperation shall not affect the independent identity, values, objectives, or organisational autonomy of GR FIRST, which remains a distinct movement rooted in the aspirations and development priorities of the Garden Route community.

For the avoidance of doubt, GR FIRST shall not be deemed a branch, affiliate, or subdivision of any organisation with which it enters into electoral cooperation. GR FIRST retains full authority to nominate and put forward its own candidates for Ward and Proportional Representation (PR) seats, whether contesting under its own name or under the banner of a cooperating independent party.

GR FIRST affirms that communities flourish when righteousness, justice, and humility form the foundation of governance.

GR FIRST affirms that sustainable service delivery and development must always remain within the carrying capacity of available resources. Population growth and land use expansion may not

Putting People First – Through transparent, inclusive, independent governance

exceed the limits of water supply, infrastructure readiness, or environmental resilience, ensuring that communities thrive without compromising future generations.

GR FIRST recognises that environmental degradation and climate risks disproportionately affect the poor and future generations and commits to governance choices that advance intergenerational justice.

GR FIRST envisions a community revitalised through transparent governance, reimagined through inclusive participation, and regenerated through sustainable stewardship — where every resident flourishes with dignity, agency, and hope.

Local Chapters within the Garden Route District — George, Knysna, Bitou, Mossel Bay, Oudtshoorn, Hessequa, and Kannaland — and Chapters beyond the District may adopt this Constitution with localised mandates, provided they uphold the foundational values, governance standards, and electoral integrity outlined herein.

- **Revitalisation — *Restoring What Sustains Us***
 - Focuses on repairing trust, reclaiming delivery, and reinvigorating civic participation.
 - Anchors efforts in ward-level infrastructure, oversight mechanisms, and transparent reporting.
 - Revitalisation is about making the invisible visible—surfacing neglected timelines, budgets, and community needs.
 - It affirms that stewardship begins with accountability: restoring what was promised and ensuring it reaches those most affected.
- **Reimagination — *Reframing What's Possible***
 - Invites communities to dream beyond dysfunction, using visual storytelling, inclusive metaphors, and related aligned planning.
 - Reimagination is not cosmetic—it's strategic hope: aligning data, dignity, and delivery in ways that inspire action.
 - It empowers youth, elders, and persons with disabilities to co-author the future, not just receive it.
 - Through workshops, dashboards, and branded messaging, it reframes governance as a shared canvas, not a distant bureaucracy.

- **Regeneration — *Building What Heals***

- Moves from restoration to renewal, embedding long-term sustainability, inclusion, and community verification.
- Regeneration is about systems that nourish—from water access to civic mobilisation, from budget discipline to emotional resonance.
- It affirms that healing is structural: when governance reflects care, clarity, and continuity.
- This pillar ensures that GARDEN ROUTE First is not a moment, but a movement—rooted in values, growing through action.

9. Commitment to the People of LOCAL MUNICIPALITIES

- These commitments reflect a revitalised, reimagined, and regenerated GARDEN ROUTE— where dignity, service, and sustainability guide every decision.

 - Garden Route First (“GR FIRST”) may, by resolution of its competent decision-making structures, contest municipal elections through a cooperative electoral arrangement with an IEC Independent political Party. This arrangement enables GR FIRST candidates to appear on the ballot under the Independent Political Party name and emblem for purposes of electoral participation.
- Preservation of GR FIRST Identity and Autonomy
 - Such cooperation does not constitute a merger, absorption, or subordination of GR FIRST into the Independent Political Party . GR FIRST retains its distinct

Putting People First – Through transparent, inclusive, independent governance

identity, name, symbols, objectives, policies, internal governance structures, and organisational autonomy at all times.

- GR FIRST shall continue to campaign, organise, recruit members, and operate publicly under its own name, symbols, and brand, irrespective of the electoral vehicle used on the ballot
- Mandate and Accountability of GR FIRST Representatives
 - GR FIRST members elected to public office through this arrangement remain accountable to GR FIRST's constitution, values, and decision-making bodies. Their mandate originates from GR FIRST and is exercised in alignment with GR FIRST's objectives and the interests of the Garden Route community.
- Terms of Cooperation
 - The terms, scope, and duration of the electoral cooperation with the Independent Political Party shall be determined by GR FIRST's highest decision-making body and may be reviewed, amended, or terminated by GR FIRST in accordance with this Constitution.
 - No provision of any cooperation agreement may override this Constitution or diminish the autonomy of GR FIRST
- Communication to Members
 - GR FIRST shall ensure that all members are informed of the nature and implications of the electoral cooperation with the Independent Political Party, including the preservation of GR FIRST's independent identity and the strategic purpose of contesting elections under the Independent Political Party's banner.

Elected representatives (councillors) entrusted with the dignity, safety, and prosperity of our communities, will be bound by the **Code of Conduct for Councillors (Schedule 7 of the Municipal Structures Act)**. In addition, councillors commit to a higher **Community Stewardship Standard**, pledging to serve with integrity, transparency, and dedication beyond the minimum legal requirements.

- **Legal Baseline (Schedule 7 Obligations)**

Councillors must:

- Act in good faith, honestly, and transparently, always in the best interest of the municipality.
- Attend all council and committee meetings unless excused; repeated absence results in fines or removal.
- Avoid conflicts of interest; disclose financial interests and withdraw from meetings where such interests exist.

Putting People First – Through transparent, inclusive, independent governance

- Not vote for resolutions that conflict with legislation.
- Report back to communities at least quarterly on council performance and service delivery.
- Refrain from using their position for personal gain or improperly influencing staff appointments or contracts.
- Respect municipal property and resources, ensuring they are used only for official purposes.
- Accept sanctions (fines, removal, disqualification) for breaches of the Code.

- Actively oppose and expose corruption in all its forms, including within their own ranks.
- Ensure municipal appointments are based on qualifications, competence, and fairness, in compliance with the Constitution and applicable labour and equality legislation.
- Promote financial responsibility by establishing municipal savings plans and reversing excessive tariff increases.
- Exercise a duty of care toward the natural environment, including water security, biodiversity, and climate resilience, and be accountable to communities for environmental outcomes, not merely compliance
- Prioritize biodiversity protection and oppose environmentally harmful developments, ensuring sustainability as prescribed by law.
- Guarantee inclusive, democratic participation, ensuring all voices are heard in municipal decision-making.
- Actively advance community safety by prioritising the protection of women, children, pensioners, and vulnerable persons through policy, budgeting, oversight, and community-based prevention initiatives.

- The Executive may initiate internal disciplinary processes and may withdraw political support, subject to applicable law.
- Nothing in this Constitution overrides statutory processes governing councillor removal.

Putting People First – Through transparent, inclusive, independent governance

- GR FIRST shall communicate that the Independent Political Party serves solely as the electoral vehicle and not as the organisational home, authority, or identity of GR FIRST.

- **Integration and Accountability**

- **Dual Commitment:** Councillors are legally bound by Schedule 7 and morally bound by the Community Stewardship Standard.
- **Transparency:** Councillors must publish both their legal compliance reports and stewardship actions quarterly.
- **Community Oversight:** Ratepayers and residents may hold councillors accountable not only to the law but also to the higher commitment.
